

VIC FEDELI, M.P.P.

NIPISSING

PETITION

TO THE LEGISLATIVE ASSEMBLY OF ONTARIO:

WHEREAS, The Auditor General of Ontario defines the global adjustment charge on hydro bills as “an extra payment covered by ratepayers over and above the actual market price of electricity”; and

WHEREAS, Wind power is simply unreliable, blows mostly at night when we don't need power, creating a surplus Ontario then has to get rid of by paying Quebec and the United States to take it, and the total cost of producing the exported power was about \$2.6 billion more than the revenue Ontario received from exporting that power between 2006 and 2013; and

WHEREAS, the Auditor General says the global adjustment has risen from \$700 million prior to the Green Energy Act to \$7.7 billion by 2013, and over the past decade, the cumulated amount is about \$50 billion; and

WHEREAS, Ontario now has the highest industrial rates in North America, and residential hydro bills are forecast to increase 42% by 2018 after peak hydro rates have already more than tripled since 2003; and

WHEREAS, local First Nations, property owners and aviation & aerospace industry stakeholders have voiced concerns about wind farm installations proposed by Innergix in Merrick and Mattawan Townships in the riding of Nipissing;

WE, THE UNDERSIGNED, do hereby petition the Government of Ontario to reverse course on these proposed wind projects and the government's expensive energy policy by cancelling feed-in tariff (FIT) subsidies, implementing an immediate moratorium on wind power development, and giving municipalities veto authority over wind projects in their communities.
